

## Return Bend, Elbow 90°, Elbow 45°, Reducing Elbow

**Pipe elbows** are fitting accessories which are used widely in various industrial sectors in pipe fitting. A pipe elbow is frequently used in pressurized applications and is available in various shapes and sizes for use in different applications.

**Material:** A234-WPB A234-WP12 A234-WP11 A234-WP5 A403-WP304 A403-WP304L A403-WP316. A403-WP316L A420-WPL6 and Ceramic Lined

**Size:** Outer Diameter (D):  $D \leq 1220\text{mm}$  / Wall Thickness (T):  $T \leq 120\text{mm}$   
L/R Elbow( 90deg & 45deg & 180deg.), S/R Elbow (90deg & 180deg.)

**Pressure:** SCH5 to SCH160

**Manufacturing standard:** ANSI, JIS, DIN, EN, API 5L, etc.

**Bending Angle:** Degree 15, 30, 45, 60, 90, 135, 180 and also could manufacture according the angles given by the clients.

**End Bevel:** According to the bevel of welding pipe fittings construction

**Surface treatment:** Shot blasted, rust-proof black oil

**Packing:** Plywood Case/ Pallet/ other

### Type of Pipe Fittings:

Pipe fittings are widely demanded for any piping and plumbing systems used in industrial and commercial applications.

Bend Pipe, Elbow, Tee / Cross, Reducer, Coupling Fittings , Stub End, Pipe Cap , U bend tube
